Ocorian is a global provider of fund, corporate and treasury services, supporting asset managers, financial institutions and international businesses across multiple jurisdictions. Through Ocorian Treasury Services, the firm delivers structured cash management, FX and banking solutions that help clients operate efficiently, remain compliant and scale across markets.

CONTEXT

Asset managers and large corporates are navigating rising operational and jurisdictional complexity. This includes multi-entity structures, fragmented regulation, and heavier administrative loads. Ocorion absorbs that burden, handling administration, governance, and regulatory demands across jurisdictions so clients can focus on capital.

That role defines what Ocorion expects from a banking partner: resilient infrastructure, multi-currency support, digital treasury integration, and speed - backed by genuine collaboration and ecosystem fluency.

SOLUTION

- Improved efficiency and control across treasury operations.
- Streamlined and predictable onboarding. Payment flows are faster and more transparent, and system connectivity has reduced manual processing and reconciliation effort.
- Consistent cash management solutions across all client types.

NEXT GEN BANKING. POWERED BY THE LATEST TECHNOLOGY.

RESULTS

Scale and certainty across currencies and jurisdictions - meeting the core demands of Ocorian's multi-market client base.

A robust, scalable cash management proposition - underpinned by Banking Circle's infrastructure, with flexible account opening built in.

Faster execution, stronger control, and greater client confidence - improving operational resilience and the investor experience across markets.
