CHALLENGE

EbixCash World Money is a leading foreign exchange and outward remittance provider in India. It serves international students, retail travellers, corporates, SMEs and emerging digital businesses with a range of domestic and cross-border payment services.

The challenges of international pay-outs are familiar: delayed credit/settlements (T+2/T+3 settlements), unpredictable bank charges, cut-off constraints, tracking difficulties and cumbersome regulatory and refund processes.

“Our comprehensive payment solutions enable clients to be future-fit with access to global markets, speedy settlement, and improved traceability and compliance.”

Sam Dudley – Head of Business Development, Strategic Markets, Banking Circle

SOLUTION

Banking Circle’s solution provides immediate access to international ‘nostro’ accounts and local payment rails, which minimises reliance on intermediaries.

Multiple currency accounts and structured references speed up reconciliation and refunds. With embedded enterprise-grade screening, monitoring and auditability checks are aligned with local regulatory requirements.

“Opening our own multi-currency nostro account is a structural shift from agent-based transfers to infrastructure-grade payments. It reduces costs and uncertainty while elevating compliance and customer experience.”

T.C Guruprasad – Managing Director & CEO, Payment Solutions, EbixCash
