infrastructure

Stablecoin settlement expands Banking Circle's regulated financial infrastructure into 24/7 digital asset rails.

We enable institutional clients to move value between fiat accounts and supported stablecoins through Banking Circle's existing bank platform, compliance framework and API-led infrastructure.

WHAT WE'RE INTRODUCING

- Stablecoin on/off-ramp settlement
- Same API-led Banking Circle Platform
- Bank-grade controls and traceability

BENEFITS

- Settlement in minutes
- Reduced pre-funding and FX timing risk
- No balance sheet risk

USE CASES SUPPORTED

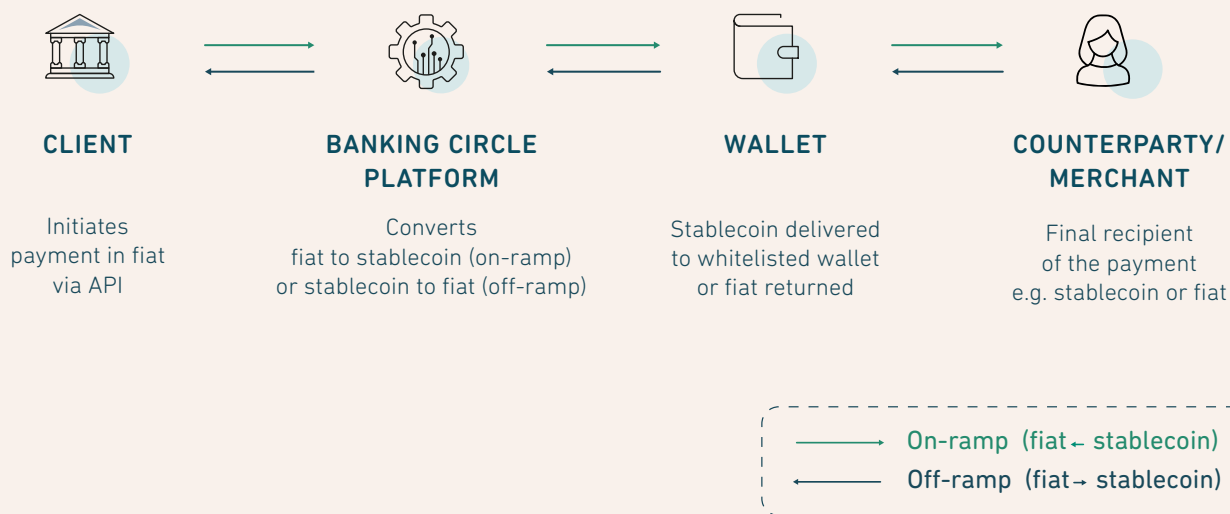

- Liquidity management
- Merchant and client settlement
- PSP, exchange and institutional flows
